

Peter Young

“I am your Independent **HEALTH CONCERN** candidate in the elections on **THURSDAY 6th MAY** for .. .

Kidderminster Town Council

BROADWATERS WARD

I am full involved in Kidderminster and Broadwaters activities through my work as Vice-Chair of the District Council and with groups such as Friends of Broadwaters Park, of Springfield Park, of Baxter Gardens, of St. George's Park, of 'Horsefair and Proud', in regular contact with local police officers on community issues with 'Broadwaters PACT', and as a Governor at St George's C of E Primary School.

“We must remember that though we have recently been through difficult times together, good times will return - and we must be ready to celebrate them with typical Kidderminster vigour.”

I wish to be one of those helping organise this revival.

Remember__

**Peter
Young**

Health Concern

“Independent **Health Concern** grew out of the 1999 campaign to restore emergency services at Kidderminster Hospital. The NHS, local and general, remains a crucial interest and so, after a year of lock-down, we were disturbed to see Covid testing the NHS to its limit; and the pitiful 1% pay rise has offended NHS staff intolerably. Since successfully contesting elections at all levels, the party continues to support local communities on all matters of importance. At **Health Concern** we pride ourselves as being a local party whose members live and work in their area and know and share the hopes and needs of those they represent.

I strongly recommend **PETER YOUNG** as YOUR candidate for **Broadwaters Ward** on 6th May 2021.

He fulfils our every expectation as a **Health Concern** candidate “.

Dr. Richard Taylor MBE
