

# Sue Meekings

“I am your **Independent HEALTH CONCERN** candidate in the elections on **THURSDAY 6th MAY** for ...

## Worcestershire County Council

### St. Johns Division

I now understand how much quite necessary work is delayed as it is processed through the bureaucracy of County Hall. They really need a ‘shake-up’ and it will take an Independent to do it - prepared to speak out - and not kept mute by direction of their ‘leaders’. I’m an experienced politician with a desperate desire to ‘do right’ for all those I represent.

Remember\_

## Kidderminster Town Council

### Foley Park and Hoobrook Ward

Kidderminster Town is desperately in need of rejuvenation. It needs to come alive again and resemble the vibrant commercial area it once was; where it was a pleasure to shop and to attend events and ‘make an evening of it’.

We need to look to local resources to give it ‘unique selling points’ so that it isn’t a ‘copy’ of everywhere else and becomes “Kidderminster, once again !”

## Sue Meekings

**Health Concern**

“**Independent Health Concern** grew out of the 1999 campaign to restore emergency services at Kidderminster Hospital. The NHS, local and general, remains a crucial interest and so, after a year of lock-down, we were disturbed to see Covid testing the NHS to its limit; and the pitiful 1% pay rise has offended NHS staff intolerably. Since successfully contesting elections at all levels, the party continues to support local communities on all matters of importance. At **Health Concern** we pride ourselves as being a local party whose members live and work in their area and know and share the hopes and needs of those they represent.

I strongly recommend **SUE MEEKINGS** as County Council candidate for **St JOHNS division** on 6th May 2021.

She fulfils our every expectation as a **Health Concern** candidate “.

Dr. Richard Taylor MBE
